

Why the 900MC is the Converters' Choice for Power and Versatility

A HYBRID WORKHORSE DESIGNED FOR TODAY'S DEMANDS

The Best of Both Worlds

The 900MC combines the **large roll diameter** and **simplicity** of the 900-M with the **speed** and **advanced features** of a turret, delivering unmatched flexibility without the complexity.

"A game-changer. The best of both worlds."

COMPARE YOUR OPTIONS

MACHINE	KEY STRENGTHS	IDEAL FOR
Turret	High-speed, high-cost, low changeover	Same job, high volume
900-M	Simple, easy-to-use entry model	Foundational converting tasks
900MC	Fast changeovers, large rewind, hybrid features	Diverse, fast-paced workflows

900MC BENEFITS AT A GLANCE

Larger rewind diameter (up to 32")

Fast changeovers & web threading

Cut-off feature simplifies start-ups

Duplex-style front end reduces training time

Continuous operation minimizes downtime

Hybrid functionality maximizes flexibility

POWER MEETS PRECISION

Built for converters with diverse job portfolios, the 900MC speeds up transitions, reduces downtime, and boosts output, all without sacrificing ease of use.
